CONDITIONS OF SALE.

Please read Sale Terms Before Bidding.

This is a bona-fide public sale, for prompt cash settlement, and irresponsible persons who are not sure whether they can pay for what they bid on, are asked not to bid. The cataloguer has taken special pains to describe each lot accurately. Errors will be corrected, but he reserves the sole right to decide upon any claims. No corrections or refunds will be made, and no lots can be returned, unless the bidder submits his case in writing **within 30 days of the date of the sale.**

Coins and medals are sold at so much per **PIECE**, and no lot will be separated. You cannot buy a few pieces out of a lot but must buy all of it. The auctioneer will accept no bid under 10 cents to start a lot where that lot contains only one piece; nor will he accept any advance under 5c on any lot containing but one piece; after the price has reached \$2. no advance under 10c will be accepted on any lot containing one piece; after \$5.00 the bid must advance 25c each time; after \$10 no bid under 50c.

Our rules regarding lots containing more than one piece will remain unchanged and the same as before.

Auction sales are strictly for cash. Parties unknown to me and bidding for the first time, must give bank or other reliable reference, or their bids will not be executed.

Forward your bids as early as possible, as thousands of bids have to be entered. Do not make ridiculously low bids, such as 10c. and 15c. on foreign silver coins worth several times over as bullion. Write your bids plainly, with a pen if practicable.

Where the number of pieces in a lot is not given after the description there is but one piece in the lot.

Be sure you bid on the lot you wish to buy. We cannot correct such errors.

All coins, etc., are genuine unless otherwise described.

A charge of 5% will be made to cover packing but where the parcel is bulky an additional packing charge will be made. No charge made for bidding except for lots actually purchased. Remit by money order or New York draft.

If any further information is required as to valuation of lots, or how to bid, please write the cataloguer, **THOMAS L. ELDER.**

Important Notice. We keep two books of the sale recording each lot as sold, and we will not accept any sale records from outsiders. **Our records are final.**

INSTRUCTIONS.

Please read our sale terms before you bid at these sales. You are obliged to comply with them. We had several unfair bidders at our last sale. One man in Cleveland, O. returned a lot of cents, every one of which was properly described. He is off the list.

Several others owe us money for months. We are going after them good soon. Another man out in West Virginia returned coins for insufficient reasons. He made an unlimited bid and welched on the price at the sale. He goes off our list. All these kickers deprive themselves of opportunity to bid at the best and biggest coin sales being held in the country today when they go off our mailing list. We won't ever reinstate them either.

Errors of our own will be corrected, but as per the sale terms, we are the sole judges of any dispute about lots at the sale. Another man bid on the wrong lots, and returned the coins afterwards. His own error, not ours.

No corrections made after coins are delivered and leave the desk.

Strangers bidding in the room must make a cash deposit of 25% of their bids.

Coins are not catalogued by aid of a big glass but by the naked eye, as they should be. This is how they are classified and rated, and this is how Mr. H. Chapman, the veteran cataloguer, rated all of his. Any defects which do not appear to the eye could not properly be counted as defects. We don't have many complaints, but the Borcky sale brought forth three or four, which we have carefully considered and acted accordingly.

All lots are actually sold, not on approval. Terms Cash.

Ask Mr. Elder for estimate on any lot in this sale. Priced Catalog of this sale only 75c.

COINS AS AN INVESTMENT.

In a syndicated article on finance published weekly by Roger Babson, the great economist and statistician, he says "The hope of the future is based on first, children; second, good health; third, culture, fourth, to own your own home or a small farm; fifth, TO TIE UP SURPLUS MONEY IN RARE COINS, STAMPS OR JEWELS," about which he says. "From a purely investment angle these collections have weathered economic storms better than anything else."

This quotation from such a great authority, who has predicted we "will have open inflation" later on is most heartening to all coin collectors and should help the pursuit.
